

THE INSTITUTE OPENS

With Exercises Which Promise Well for the Week.

INTERESTING TALKS ARE GIVEN

By the Three Instructors on Their Special Branches—The Value of Drawing in the Public Schools, Psychology Made Clear—A Talk About Literature.

At precisely 9:30 a. m. yesterday the Wheeling teachers' institute was called to order by City Superintendent W. H. Anderson. An appropriate hymn was sung, Miss Ella Roberts at the organ, and Miss Lucy Robinson leading in the singing. Dr. Quarles, one of the instructors, offered a fervent prayer, after which another song was sung, all joining heartily.

Superintendent Anderson then made a few remarks, stating the object of the institute. Among other things he stated that we were here to better prepare ourselves for our year's work. The board of education has deemed this work of preparation so important that it was willing to allow the teachers attending full pay for their attendance, and hence it is the duty of all to be present, nothing excusing them except what would excuse them from school. The roll was called by Miss Keppetto, secretary, and nearly all the teachers answered to their names.

Miss Christine Sullivan, superintendent of drawing in the Cincinnati schools, was introduced and delivered a lecture on the subject of "Elementary Art in our Public Schools." Drawing is indispensable to a manufacturing community—is invaluable. The perceptive powers are developed. The love of the beautiful is enhanced. The entire mind is developed, and the sphere of knowledge is enlarged. Every child can be and should be taught to draw. A child should not be excused from drawing because it has no talent for it. This is the very child that needs the drill. Those having the natural talent will get along. The condition of the whole country depends upon its industries. All works of art are made from drawings. The better the draughtsman's work, the more beautiful the work. A large per cent of our workmen are without this knowledge and hence the necessity of constant supervision. A leading manufacturer is authority for the statement that "the services of young men who have had systematic instruction in drawing are worth 25 per cent more than those who have not."

He referred to the fact that for years past we have depended on foreigners for our skilled workmen. We lack artistic qualities in our working people; hence the necessity of teaching drawing in all our public schools. This is now being done more generally throughout our land, and we will soon supply all demand with home labor, or those who have made our land their homes from other countries.

After singing, Prof. F. V. Irish, of Columbus, O., was introduced, and gave an interesting talk. He first spoke of the importance of the institute. We are here to get more power, to get stronger for our work. The teacher should grow.

He took up the subject of language, and spoke first of the growth of our language. The Anglo-Saxon is the backbone of our language; all our strong words—those that mean so much—such as home, mother, etc., are Anglo-Saxon. The English language is to be the universal language of the world, and it should be the language of our schools. The teacher above all others, should use pure, good language. Incidentally he spoke of the duty of the teacher to young childhood and the sacredness of childhood.

Grammar is hard to teach, because it is not an exact science; language work should proceed gradually.

Dr. Quarles, in commencing his talk, said that as a son of the mother state he felt himself happy to speak especially to the daughters of the daughter state. One of the happy results of the war was the union of the states, but one of the unhappy results was the separation of the two states—thy of the old state think so. He proceeded to talk on the subject of Psychology, or the Science of the Human Mind. The talk will be followed by others during the institute.

The doctor is a pleasant speaker and fully understands his subject.

The afternoon session opened promptly at 1:30, and singing was followed by roll call, after which Miss Sullivan continued the subject of drawing. The two important results of education are the training of the faculties and the acquisition of knowledge. Miss Sullivan gave practical illustrations on the board as she proceeded, which were very interesting to the members of the institute.

Dr. Quarles continued his talk on Psychology, first reviewing what he had presented in the forenoon, and he proceeded in a very interesting manner to show the different exercises of the mind, objective and subjective. The power to know is principally subjective, while the power to feel will follow the power to know and to feel. This gives the three powers of the mind, the intellect, the sensibility, and the will. The doctor makes the usually dry and difficult subject very interesting and simple. After a short recess and a song, Prof. Irish gave a talk on literature.

His talk was greatly enjoyed. He showed how the study of good literature ennobles the life. Poetry is the true literature, and will tell it to the teacher can put much poetry into the life of the pupil. Literature enriches our lives; it does us good in many ways.

The Wheeling teachers are surely favored this year as far as instructors are concerned, in the persons of Miss Sullivan, Professor Irish, and Dr. Quarles. The public generally is earnestly urged to attend the meetings. A special feature of to-day's meeting will be the music.

Reciprocity Treaty Cancelled. Madrid, Sept. 3.—The Gazette published to-day a decree cancelling the reciprocity treaty between the United States and Cuba, the cancellation to take effect "the moment the United States applies the new customs tariff."

Talk on Petroleum. St. Petersburg, Sept. 3.—A decree will be issued September 15 reducing the tariff on distilled petroleum, exported via the Prussian frontier, from 24 to 24 copecks per pound, in order to facilitate competition with American petroleum.

Cholera at Bargain. Washington, D. C., Sept. 3.—Consul General Mason, at Frankfurt-on-the-Main, has telegraphed the state department that cholera exists at Bargain, near Harburg.

GREAT ANXIETY

At Eau Claire—Terrible Damage Done by the Forest Fires.

Eau Claire, Wis., Sept. 3.—Wires to points on the northern division of the Omaha road have been down since last night and information of the situation up north is lacking. The last train from the north on the Omaha reached here at 5 o'clock Saturday afternoon and no trains have gone out or in since, except a wrecking train sent from Eau Claire early this morning. Railroad men say the whole region to Cartwright, Bashaw and Haugen has been on fire since Saturday afternoon. Bridges are burned and wires down and no one knows when trains will run. One of the Northwestern Lumber Company said that they already had 50,000,000 feet of pine burned on the Eau Claire, and did not believe there would be a green tree left when rain comes. A special from Cadotte says the village is surrounded by fire.

GRAVEST PAINS

Felt for St. Paul Citizens Who Went Gunning in the Minnesota Forests.

St. Paul, Minn., Sept. 3.—It is feared that many well known residents of St. Paul have perished in the forest fires of Hinckley and vicinity since Saturday night. Large numbers of sportsmen have left St. Paul within the last ten days to hunt prairie chickens near Hinckley, Mora, Sandstone and other points in that vicinity, and few of these places have escaped the forest flames. The fire covers a wide stretch of territory, and if these sportsmen were in the forests no power on earth could save them unless they were close to some large body of water.

A great many St. Paul families are uneasy, fearing the worst has happened to their loved ones who went gunning last week. President George Freeman of the Minnesota Shoe Company, and Lumberman Cusick, a prominent resident of Stillwater, went hunting in the forests near Hinckley last Friday and nothing has been heard of them up to midnight last night. It is feared they perished in the fire. Mrs. Freeman said last night that her husband's address was Mora, Minn., about 25 miles this side of Hinckley, so in all probability Mr. Freeman is safe, though nothing has been heard from him.

The Loss at Hinckley.

MINNEAPOLIS, MINN., Sept. 3.—From a staff correspondent of the Journal at Pine City, Minn., comes the following: A heavy rain has set in and bids fair to continue all day. No further particulars as to the list of the dead is obtainable this morning. Public burial of the unidentified bodies will be held at Hinckley to-day. The total loss at Hinckley and the immediate vicinity is roughly estimated at \$800,000.

Danger Over at Milaca.

MILACA, MINN., Sept. 3.—Threatened danger to this town of complete destruction by the savage forest fires which raged here Saturday and yesterday, is over, and the fire is completely under control. While no lives are known to be lost here, the loss to property is very heavy. Many farmers are left without even enough to cook a meal, losing buildings, live stock and everything else sick and clean, with no insurance whatever.

Complete Destruction.

SPOONER, WIS., Sept. 3.—The destruction of Barronette was complete. One lone building is left of a city of 700 inhabitants. One man was burned. The total loss is a quarter of a million.

A PLEASANT FEATURE

Of the Labor Day Celebration in Washington City.

WASHINGTON, Sept. 3.—A feature of the Labor Day celebration was the production at the Washington base ball park of Innes' new cantata "War and Peace" under the auspices of Typographical Union No. 1. A large crowd witnessed the representation of this musical spectacle, which presents on a large scale the scenes and incidents of the late war set to music. Besides Innes' well-known New York military band, there were three choruses of 400, 30, and 30 voices respectively, besides several hundred soldiers participating. The southern war songs were especially taking with the crowd. From here Mr. Innes goes to the Pittsburgh exposition.

Maryland's Celebration.

BALTIMORE, Sept. 3.—This being Maryland's first legal labor holiday, no effort was spared by the Federation of Labor and other workmen's associations to make the occasion a notable one. At noon a parade containing from 6,000 to 10,000 men marched through the principal thoroughfares, which were crowded with sight-seers, and proceeded to Darley Park where speech-making and athletic games were indulged in.

Labor Day in New York.

NEW YORK, Sept. 3.—Labor made an imposing demonstration here to-day. The weather was favorable for marching, the sun being obscured by haze, while a cool breeze from the east made the air bracing. Not far from 20,000 men, representing nearly all the trades, were in line, and here and there in the procession were bands of women from the various assemblies, such as the cloak makers, of organized feminine labor.

New England's Labor Day.

Boston, Sept. 3.—Labor's holiday was celebrated throughout New England to-day. Business was generally suspended. In all the cities a wealth of entertainments and sport was offered, and all day the streets were alive with bands of music and processions. In Boston over 15,000 were in line.

The Day in Washington.

WASHINGTON, D. C., Sept. 3.—To-day being labor day, all the government departments and public offices were closed, as were a great many stores and public places. The labor organizations paraded and spent the day at a park in the outskirts.

G. A. R. Will Go by the R. & O.

The West Virginia Department, G. A. R., has chosen the Baltimore & Ohio railroad, as the official route to the National Encampment at Pittsburgh, September 10 to 15. The round trip tickets from all points on that road will be good on all trains on and after September 6. From Wheeling a special train will be run daily during the encampment, leaving here at 7 a. m., and leaving Pittsburgh on the return trip at 11 p. m.

A. M. BAILEY, a well known citizen of Eugene, Oregon, says his wife has for years been troubled with chronic diarrhea and used many remedies with little relief until she tried Chamberlain's Colic, Cholera and Diarrhea Remedy, which has cured her sound and well. Give it a trial and you will be surprised at the prompt relief it affords.

SOLID FOR ELKINS.

The Berkeley County Delegation Goes to the Convention Sixty Strong.

MARTINSBURG, W. VA., Sept. 3.—A delegation of sixty Republicans accompanied by the city band left for Elkins to-night to attend the Second district congressional convention on Wednesday. The delegation is solid for Stephen B. Elkins and will endeavor to bring about his nomination. The Jefferson delegation is also solid for Elkins.

HERE'S NERVE.

Ex-Governor Windy Wilson Anxious to Run Up Against a Buzz Saw.

CHARLESTON, W. VA., Sept. 3.—Ex-Governor E. W. Wilson has tendered his services to the state Democratic committee during the campaign, and desires to be sent into the Second district to meet Hon. Thomas B. Reed, who will take the stump for William L. Wilson's opponent. He will be sent there.

ARTIFICIAL SILK

Produced in England—The Days of the Silk Worm are Numbered.

WASHINGTON, Sept. 3.—Claude Mosker, consul at Bradford, England, has sent to the state department a report upon the attempts that are now being made to manufacture artificial silk. His report contains some very interesting points upon the progress made. He says that a company is now being promoted in Bradford for the manufacture of artificial silk. Patents have been taken out in the United States, and it is proposed to establish a company in this purpose of selling rights. The inventor of the process is Mr. Frederick Lehner, of Zurich, Switzerland.

"If the fond hopes of the inventor," says Consul Mosker, "are realized the princely position of the silk worm is usurped. In order to make the usurpation more complete a false worm of glass, spinning a thread of which is wound in an artificial cocoon, is fetched upon the scene."

"At the office of the company in this city there is shown daily the 'spinning frame' in operation and one can see the liquid contents of a pot on top of the frame turned instantaneously before his eyes into what appears a pure silken yarn or thread."

The consul gives a description of the process of manufacture.

A CHINESE VICTORY.

The Japanese Lost Five Thousand Men in the Battle of Ping Yang.

TIENTSIN, Sept. 3.—An imperial edict has been issued rewarding General Yoh and 700 Chinese officers for their victory over the Japanese at Ping Yang on August 17. General Yoh reports that the Japanese lost 5,000 men in the engagement at Ping Yang and during the days when the Chinese were in pursuit of the enemy, while the casualties of the Chinese were small.

GUERRILLA WARFARE

Waged Against the Japanese in Korea. Landing of Saitonjo.

LONDON, Sept. 3.—A dispatch to the Times from Shanghai to-day says that the Japanese Marquis Saitonjo landed at Chemalpo, Korea, on August 28 and congratulated the king of Korea upon having attained his independence.

The dispatch adds that the Japanese hold at present the provinces of Seoul, Hwangho and the country around the treaty ports. The remainder of the country is said to be in possession of armed bands of Koreans.

It is stated that the feeling against the Japanese in Korea is increasing and that the natives are commencing to wage guerrilla warfare against them.

Twenty Persons Drowned.

LONDON, Sept. 3.—A party of twenty-seven pleasure seekers from Burnley were overturned into the water of Horcumbe Bay by the capsizing of a boat they had hired. Of this number only seven were saved. Four bodies have been recovered.

G. A. R. ATTENTION!

Password and Countersign for the Pittsburgh Encampment.

Comrades, the password to the G. A. R. National Encampment is "Pennsylvania Lines," and the countersign is "Look at the Map." There is only one railway over which regular trains and through cars run from your locality direct to Pittsburgh; only one shortest and best route. Any reliable railway may prove that these advantages are possessed only by the Pennsylvania Lines. This is the only thoroughfare from your station to Pittsburgh under one management. It will be great fun going to the Encampment in special cars and special trains with bands and flying colors. But how about getting back when the great crowd breaks up and makes the rush for home. Think about it. It's likely you'll feel tired at the close of Encampment week and not care to spend any more hours on the road or change cars other than is necessary on the return journey. Take the Pennsylvania Lines.

West Virginia State Fair Trains via the Baltimore & Ohio.

For the accommodation of persons attending the Fair, the Baltimore & Ohio Company will run a special train, for Mannington and intermediate stations, leaving Wheeling at 6:10 p. m., September 4, 5, 6 and 7.

GEO. E. STEFEL & CO.'S stores will close Thursday at 1:30 o'clock p. m., in order that employees may attend the State Fair.

Harvest Excursion to Michigan, September 18, 1894.

The Cleveland, Lorain & Wheeling Railway Company will make half fare rates for the round trip to all points in Michigan. Stop over privileges will be granted to any point in the state. Tickets will be on sale September 18, 1894, good for twenty days. This is a rare chance to visit your friends and examine the vast resources and business opportunities of this great state. Tickets on sale at all stations.

J. E. TERRY, General freight and passenger agent.

Carriers

DELIVER THE INTELLIGENCER To Residences and Business Houses Throughout Wheeling AND ITS SUBURBS. DAILY, 15c PER WEEK. To order easily, call up TELEPHONE 416.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Reliability

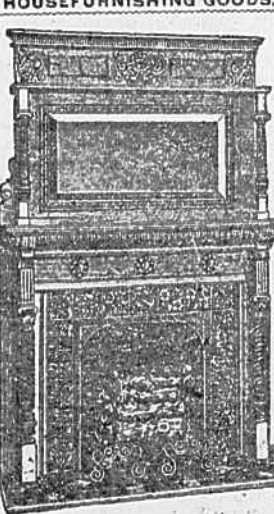

THE MOST RELIABLE WHISKY ON THE MARKET And Indorsed BY PHYSICIANS AND USED IN LEADING HOSPITALS, HOTELS, DINING AND BOUQUET CARS, ARE

Klein's Silver Age, Duquesne, Bear Creek, Pennsylvania Rye Whiskies.

Ask your dealer for them and take no substitute. For sale everywhere. P. R.—A register for your name will be kept at my place of business, No. 85 Federal St., Allegheny, during the G. A. R. Encampment. Come and register with Comrade Max Klein, late of Co. F, 1st Iowa Cavalry.
